PROCUREMENT DIVISION WEEKLY REPORT FOR

PERIOD ENDING 9 May 1984

1. Progress Report of Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest That Have Occurred During the Preceding Week:

25X1 a. IBM Typewriters: On 8 May 1984, [ ] of  
25X1 IBM met with [ ] Supply Division (SD/OL), and  
25X1 [ ] Procurement Division (GPB/PD/OL). The  
meeting was initiated by Procurement Division to discuss the "rumors"  
that IBM was going out of the electro-mechanical typewriter  
business. IBM assured us that the Selectric III typewriters have  
been provided to GSA for testing and IBM feels that it has a good  
chance of winning the competition for FY-85. They also indicated  
25X1 that the company anticipates providing the same typewriter to GSA for  
testing for the FY-86 contract. [ ] indicated  
that they feel that the '85 electronic typewriter (the typewriter of  
the future) may not require TEMPEST modification and offered to bring  
one in for Office of Communications (OC/COMSEC) to test. Tony will  
25X1 coordinate with OC/COMSEC and call [ ] to advise. In  
addition, IBM invited Agency representatives to Lexington, Kentucky,  
to preview on a "non-disclosure" basis, a new family of electronic  
25X1 typewriters that IBM is very excited about. [ ]

## C O N F I D E N T I A L

c. Systems Furniture Procurement: The Request for Proposal (RFP) for the National Photographic Interpretation Center's (NPIC) system furniture was mailed to seven potential offerors on 18 April 1984. A pre-proposal conference was conducted at NPIC on 03 May 1984. Five offerors attended the meeting as two offerors submitted no-bids prior to the meeting. Most of the questions dealt with the electrical specification and how the workstation would be electrified. An amendment plus written minutes are currently being prepared for distribution to all offerors. To date one other offeror has submitted a no-bid response to our RFP. Proposals are due 01 June 1984 with contract award projected for June 1984.

d. LIMS Quality Assurance Contract Extension: In order to bring the LIMS Quality Assurance (QA) support effort into conformance with development effort scheduling, the QA Contractor (CTEC, Inc.) has submitted a proposal for a one-year extension of its present contract, through 30 September 1989. In addition to the proposed extension, CTEC's proposal represents a redefinition of the QA support currently contracted with a proposed estimated cost increase of approximately \$1.3M. Contingent upon the availability of funds and the results of a technical evaluation and audit analysis, action will be taken to negotiate and finalize such an agreement by mid June 1984.

e. Maintenance Of Intergraph Equipment: A joint review of several Intergraph contracts has been conducted by Automatic Data Processing & Engineering Branch (ADP&EB/PD/CL) and Office of Current Production and Analytical Support Group (CPAS/CDP/SC). The findings of the review indicate that substantial quantities of equipment are not currently contractually covered for required maintenance services. CPAS has subsequently been requested by ADP&EB to provide an accurate listing of all Intergraph equipment that is subject to maintain services so that the various Intergraph contracts may be updated. It is anticipated that additional funds in the amount of approximately \$70,000 will be required to update the contracts. CPAS has initiated an updated equipment list and an appropriate funding document which will be forwarded to ADP&EB as soon as possible.

### 3. Significant Events Anticipated During the Coming Week:

None
